UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

**FORM 8-K**

**CURRENT REPORT**  
Pursuant to Section 13 or 15(d)  
of the Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): August 13, 2019

**CYCLACEL PHARMACEUTICALS, INC.**  
(Exact name of registrant as specified in its charter)

Delaware  
(State or other jurisdiction  
of incorporation)

0-50626  
(Commission File Number)

91-1707622  
(IRS Employer  
Identification No.)

200 Connell Drive, Suite 1500  
Berkeley Heights, NJ 07922  
(Address of principal executive offices and zip code)

Registrant's telephone number, including area code: (908) 517-7330

(Former Name or Former Address, if Changed Since Last Report)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions (see General Instruction A.2. below):

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Trading Symbol(s)</u>	<u>Name of each exchange on which registered</u>
Common Stock, par value \$0.001 per share	CYCC	The Nasdaq Stock Market LLC
Preferred Stock, \$0.001 par value	CYCCP	The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

**CYCLACEL PHARMACEUTICALS REPORTS SECOND QUARTER 2019 FINANCIAL RESULTS**

*- Conference Call Scheduled August 13, 2019 at 4:30 p.m. ET -*

**Berkeley Heights, NJ, August 13, 2019** - Cyclacel Pharmaceuticals, Inc. (NASDAQ: CYCC, NASDAQ: CYCCP; "Cyclacel" or the "Company"), a biopharmaceutical company developing innovative medicines based on cancer cell biology, today reported financial results and business highlights for the second quarter 2019. The Company's net loss applicable to common shareholders for the three months ended June 30, 2019 was \$1.8 million. As of June 30, 2019 cash and cash equivalents totaled \$15.2 million.

"We are excited to report new evidence of anticancer activity for CYC065. In part 2 of our Phase 1 study of CYC065 as a single agent, a patient with endometrial cancer with MCL1 amplification treated on the fourth dose level achieved tumor shrinkage. This patient was previously treated with liposomal doxorubicin, carboplatin, and multiple investigational therapies," said Spiro Rombotis, President and Chief Executive Officer of Cyclacel. "Following our recent announcement of the first patient dosed in a Phase 1/2 study with an oral combination of sapacitabine and venetoclax in relapsed or refractory AML or MDS, we are now dosing patients in five clinical studies in pursuit of our strategy of overcoming cancer resistance mechanisms through combinations of our candidates with approved drugs. The first two patients in the relapsed or refractory CLL study evaluating the combination of CYC065 and venetoclax remain on treatment for 4 and 6 cycles respectively. A total of 4 patients with BRCA mutant breast cancer have been treated in the Phase 1/2 investigator sponsored trial (IST) evaluating sapacitabine and olaparib and one patient has achieved partial response (PR). With projected cash to the end of 2020 we look forward to delivering on multiple data outcomes from our ongoing studies."

**Key Company Highlights**

- Reported first evidence of anticancer activity in part 2 of the Phase 1 study (065-01) as a single agent testing a frequent dosing schedule of four, one-hour infusions every three weeks in which a patient with endometrial cancer with MCL1 amplification treated on the fourth dose level of 213mg achieved tumor shrinkage;
- Reported that patients with relapsed/refractory CLL treated in the 065-02 study with CYC065 plus venetoclax are continuing treatment after ibrutinib front-line failure;
- Announced treatment of the first patient in a Phase 1 study (065-03) evaluating the safety and effectiveness of CYC065, a CDK2/9 inhibitor shown to durably suppress MCL1, in combination with venetoclax, a BCL2 inhibitor, in patients with relapsed or refractory AML or MDS. Preclinical data confirmed synergy of CYC065 and venetoclax, suggesting that the suppression of both BCL2 and MCL1 may be more beneficial than inhibiting either one alone;
- Announced treatment of the first patient in part 2 of a Phase 1/2 study (682-11) evaluating the safety and effectiveness of an oral regimen of sapacitabine in combination with venetoclax in patients with relapsed or refractory AML or MDS. Sapacitabine is a nucleoside analogue that is active in AML and MDS relapsed or refractory to prior therapy such as cytarabine or hypomethylating agents. Combining sapacitabine with venetoclax may offer an effective, oral treatment regimen for patients who have failed front-line therapy;
- Following an amendment of the Phase 1 study (065-01) of single agent CYC065 in patients with advanced cancers part 3 of the study will evaluate an oral form of CYC065.

**Key Upcoming Business Objectives**

- Report initial data from the CYC065-venetoclax Phase 1 studies in relapsed/refractory leukemias;
- Report initial data from the sapacitabine-venetoclax Phase 1 study in patients with relapsed or refractory AML or MDS;
- Report initial data from the CYC140 Phase 1 First-in-Human study;
- Report initial data and bioavailability from the Phase 1 study of an oral formulation of CYC065;
- Report updated CYC065 Phase 1 data with frequent dosing schedule in patients with advanced solid cancers;
- Report data from the IST Phase 1b/2 trial of sapacitabine-olaparib combination in patients with BRCA mutant metastatic breast cancer when reported by the investigators;
- Determine regulatory pathway and submissibility of sapacitabine in elderly AML patients.

**Financial Highlights**

As of June 30, 2019, cash and cash equivalents totaled \$15.2 million compared to \$17.5 million as of December 31, 2018. The decrease of \$2.3 million was primarily due to net cash used in operating activities of \$6.3 million, offset by net proceeds from a Common Stock Sales Agreement with H.C. Wainwright of \$4.1m.

Research and development expenses were \$1.2 million for the three months ended June 30, 2019 compared to \$1.2 million for the same period in 2018.

General and administrative expenses were \$1.2 million for the three months ended June 30, 2019 compared to \$1.3 million for the same period in 2018.

Other income, net for the three months ended June 30, 2019 was \$0.2 million compared to \$0.1 million for the same period of the previous year.

The United Kingdom R&D tax credit was \$0.3 million for the three months ended June 30, 2019 compared to \$0.5 million for the same period in 2018.

Net loss for the three months ended June 30, 2019 was \$1.8 million compared to \$1.9 million for the same period in 2018. With the projected cash-sparing benefits accruing from the MD Anderson alliance the Company believes that cash and marketable securities, which were approximately \$15.2 million as of June 30, 2019, will be sufficient to finance operations through the end of 2020.

**Conference call information:**

US/Canada call: (877) 493-9121 / international call: (973) 582-2750  
US/Canada archive: (800) 585-8367 / international archive: (404) 537-3406

**About Cyclacel Pharmaceuticals, Inc.**

Cyclacel Pharmaceuticals is a clinical-stage biopharmaceutical company developing innovative cancer medicines based on cell cycle, transcriptional regulation and DNA damage response biology. The transcriptional regulation program is evaluating CYC065 in combination with venetoclax in patients with relapsed or refractory CLL and AML/MDS. The DNA damage response program is evaluating an oral combination regimen of sapacitabine and venetoclax in patients with relapsed or refractory AML/MDS. The anti-mitotic program is evaluating CYC140, a PLK1 inhibitor, in AML/MDS patients. Cyclacel's strategy is to build a diversified biopharmaceutical business focused in hematology and oncology based on a pipeline of novel drug candidates. For additional information, please visit [www.cyclacel.com](http://www.cyclacel.com).

**Forward-looking Statements**

This news release contains certain forward-looking statements that involve risks and uncertainties that could cause actual results to be materially different from historical results or from any future results expressed or implied by such forward-looking statements. Such forward-looking statements include statements regarding, among other things, the efficacy, safety and intended utilization of Cyclacel's product candidates, the conduct and results of future clinical trials, plans regarding regulatory filings, future research and clinical trials and plans regarding partnering activities. Factors that may cause actual results to differ materially include the risk that product candidates that appeared promising in early research and clinical trials do not demonstrate safety and/or efficacy in larger-scale or later clinical trials, trials may have difficulty enrolling, Cyclacel may not obtain approval to market its product candidates, the risks associated with reliance on outside financing to meet capital requirements, and the risks associated with reliance on collaborative partners for further clinical trials, development and commercialization of product candidates. You are urged to consider statements that include the words "may," "will," "would," "could," "should," "believes," "estimates," "projects," "potential," "expects," "plans," "anticipates," "intends," "continues," "forecast," "designed," "goal," or the negative of those words or other comparable words to be uncertain and forward-looking. For a further list and description of the risks and uncertainties the Company faces, please refer to our most recent Annual Report on Form 10-K and other periodic and other filings we file with the Securities and Exchange Commission and are available at [www.sec.gov](http://www.sec.gov). Such forward-looking statements are current only as of the date they are made, and we assume no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.
